If you dream of inspiring and engaging people to do their best, this book is for you.

Jack and the Team that Couldn't See is a tale about leadership and managing teams for high performance. It tells the fictional story of a man who gets some unlikely lessons from some unlikely teachers. He discovers that in order to get his teams to perform their best he must enable them to see what is most important.

The foundation of this book combines research about high performance with practices from some of the best teams in the world and dissolves the complexity around building high performance teams. When you read this book, the problems will be recognizable and the solutions immediate.

Author Tony Wilson has worked with some of Australia's leading organisations and sporting teams. Through workshops, coaching, and executive mentoring, he has continuously and successfully built strong leadership and high performing cultures for enduring success. www.tony-wilson.com.au

"A must read for those who are in a position to lead a team - you will be inspired to become more visionary and inclusive of those you interact with."
Vicki Wilson OAM, Former Australian Netball Captain 1999

"As a client of Tony's over many years during my playing career I gained the benefits of being under the care of a thoroughly professional, highly motivated man...I congratulate Tony on this book, which I know will assist others in achieving success in this field also."
Matthew Hayden AM, International Cricketer
